Dear Sir/Madam

**Re: New Opportunity Homecare Services for Continuing Healthcare for NHS  
West Yorkshire Integrated Care Board**

I am writing to you with regards to the above service as the West Yorkshire Integrated Care Board (the ICB) is soon to reopen an opportunity for homecare for people eligible for continuing healthcare (CHC) funding. The ICB is seeking to produce one approved provider list, rather than five, by streamlining the application process for providers to become an approved provider.

As a current provider delivering homecare for Bradford residents the ICB is inviting you to apply for the **West Yorkshire Continuing Healthcare (CHC) Homecare Opportunity**. Applications may be submitted for one or more areas, with full details provided in the application documents. I would like to highlight here though that the Bradford locality model is not being affected and will continue to be delivered by the locality providers.

This opportunity was initially opened in May for the areas within West Yorkshire that were in scope at the time, and it will reopen in July. If you have already applied and been confirmed as successful—and indicated a willingness to accept referrals from Bradford—no further action is required. We will be contacting all successful providers shortly to confirm the specific locations for which they wish to receive referrals. If you are already accepted onto the West Yorkshire provider list, please look out for this communication in the coming weeks.

The opportunity will be reviewed at the start of each quarter with a contract start date of the first of the last month of the quarter. So, the next review of applications will be in October with a contract start date of 1 December 2025. This will be a quarterly rolling cycle.

The application is expected to reopen on **23 July 2025**, under a new reference number: **C375743**. It will be accessible via **Atamis**. If you are not yet registered on the platform, please refer to the previously issued embedded letter for guidance.

Yours faithfully
