

# Joining MS Teams Live Events from outside the organisation by laptop

When you've received the link for joining the Teams Live Event, copy and paste it into **Google Chrome** or **Microsoft Edge**. The MS Teams joining screen will now be displayed:

Select **Watch on the web instead**.

Click on **Join anonymously**.

You will now join the associated live event.

## Joining by mobile phone or tablet

If you are accessing Live Events from a mobile phone or tablet, make sure you have the MS Teams app installed, via the App Store or Google Play. You do not have to sign in to the app, just click the link to go straight into the event.
