# Self-neglect Professional Practice Session

This professional practice session explores the complex nature of self-neglect and how this relates to safeguarding adults as well as issues surrounding mental capacity. This interactive session will also explore how self-neglect is associated with hoarding and other complex issues. Practitioners from housing officers to social workers, police and health professionals can find working with people who self-neglect extremely challenging. In this session professionals will work through a case study exploring these complexities and look at how we can offer people support without causing distress and understand the limitations to our interventions if the person does not wish to engage.

**Date:**

Wednesday 2<sup>nd</sup> October 2024
