

# **FULLY-FUNDED TRAINING AND CPD OPPORTUNITIES**

## **Mallard Outsourcing**

Mallard Outsourcing works with the Learning Curve Group; one of the UK's leading providers of fully-funded NCFE-accredited training courses.

They deliver an extremely wide variety of nationally-recognised Level 2 qualifications, all of which are administered, studied, assessed and awarded 100% online with no need for classroom sessions. All courses are fully funded by the European Social Fund making them absolutely free. Learners go at their own pace to expand their skills and knowledge, or refresh on a particular subject. After enrolment, the learner will gain access to industry-leading learning materials and the support of a specialist tutor.

The programmes are all level 2 nationally recognised flexible learning programmes accredited by NCFE. They are completed at the learners' convenience on a Learning Management System where all learning materials, assessments and tutor contact is available. They take around 8 – 15 hours to complete and must be completed within 6 weeks of enrolment.

### **Eligibility Criteria**

A learner must be 19 years old or older, not currently be enrolled on an apprenticeship, have a home postcode in England, have been resident in the UK for at least the last 3 years, must not have completed this specific programme before, must have another qualification at least level 2 (GCSE).

A learner can only be enrolled on 1 programme at a time, but on completion of a programme can enrol onto another. Technical support, customer service and expert tutor support is available to the learner throughout.
