At Chrysalis Training and Consultancy, my mission is to work alongside providers, offering consultancy and tailored support to strengthen CQC compliance and elevate the quality of services for those who rely on them. Having managed a number of services and achieving an Outstanding rating from Requires Improvement, I have the experience and knowledge to share with those who strive to maintain or improve their rating.

In addition to consultancy, I provide a range of high-quality, cost-effective training packages. Many of these are Ofqual-regulated, including **Level 3 Emergency First Aid At Work , Level 2 Principles of Safe Handling and Administration of Medication, Level 2 Safeguarding, and Level 2 Infection Control**, along with additional sessions listed on my website.

As the principal trainer, I bring over 25 years of experience in Health and Social Care and hold an active nursing PIN. Each training package is customised to meet the unique needs of your service areas, ensuring both compliance and excellence.

My training costs are extremely reasonable as I appreciate the oncost of releasing staff and paying staff to cover so want my face to face training to be equitable. For example:

Level 3 Emergency First Aid at Work - This 1 day course for a Group Booking for 12 people starts at £290 - Certification costs and external verification are an additional £7 pp.

½ day courses start from £180

More details regarding the other courses available are on the website - see the link below.
