Verifyplus - App Supporting Care Homes

We have worked with Care Homes and EMCARE (*the local Care Home Association representing Care Homes across Leicester, Leicestershire & Rutland*) and developed Verifyplus - a simple time saving and easy to use digital solution, which has been a great asset to many care homes.

How it started:

There was an acceptance that the workforce, including the management were tired and exhausted, especially with the amount of admin burden. That's when Verifyplus was developed. This App has filled that gap and has been a great addition to Care Homes in supporting visitors into the homes.

Additional Features:

With the current updated guidance, Verifyplus has made a fantastic addition to the app - **The Resident Visiting Feature**. This has made it even more easier to manage the Essential Care Giver and 3 Nominated Visitors. This information can be accessed by your staff at any time through the App.

Still to Come with Verifyplus:

The drive for digital technology is on the rise and that's where we thought we could assist and create something that not only covered the current legislation and guidance, but would also be able to adapt and evolve to ensure the smooth running of the Care Homes.

The Verifyplus App has unpinned great potential and has proven to be a great asset to many Care Homes that are currently using it..

Its many features are as follows:

1. Cost effective as it costs less than 50p a day
2. Helps you with a robust system in place for CQC
3. GDPR compliant – meaning no data is stored on the device. All the information is saved in the cloud securely.
4. Easy to set up and saves management and staff time
5. The App can be downloaded on multiple Apple and Android devices and is accessible 24/7.
6. One of the biggest strengths of the App is recalling the information which reduces the issue of doorstep challenges.

A cost & time effective, innovative, user-friendly digital tool to support you & your staff to ensure everyone who enters your Care Home are fully vaccinated or exempt.

Katie Wade - Registered Manager - Amberwood Care Home

HERE IS WHAT CARE HOMES HAVE BEEN SAYING AFTER USING THE **VERIFYPLUS** APP.

“Enables us to ensure we are compliant to CQC regulations. Easy to log visitors in and out..... Makes sure that we request the correct information from visitors”.

Phil Hutchinson, Care Service Manager, The Trees

“This would have had to be recorded on paper, and admin staff who are already stretched would have to have saved all this information, so yes definitely reduced admin. All staff have a log in which means anyone can do it”

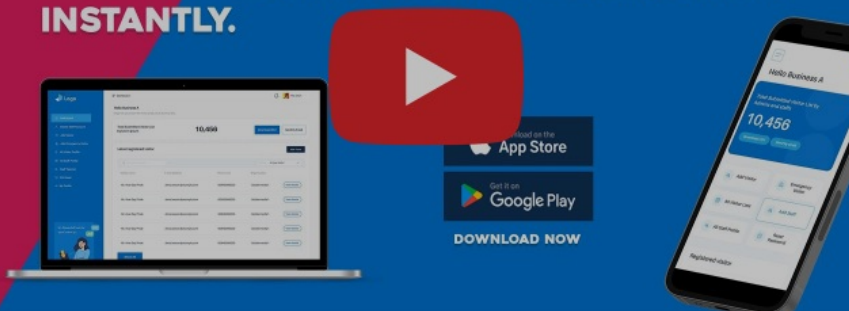

Alison Keightley, Care Service Manager, Bridgeview Day Service

“I would recommend – I do this single handily and does not take up as much time.”

Khaliffa Parker, Registered Manager, Anita Janes Lodge
