

VIP Training For Individual Employers and Personal Assistants

Coleman Training & Consultancy, a Skills for Care endorsed Centre of Excellence, have developed a suite of training tailored towards the needs of individual employers and personal assistants as part of their On-Demand Training service - VIP Training.

The VIP Training Package for individual employers and their PAs gives you the power to access high-quality, in-depth, instructor led training simply and easily. VIP Training gives you all the flexibility of e-learning but with a real trainer!

What training can I access?

Offering valuable and important courses that are adapted specifically for personal assistants and individual employers, the system reminds you of when you need refreshing on a subject with direct support from your Customer Relationship Manager, Juanita.

How does VIP Training Work?

Once you purchase your VIP Training Package you will then be given access to the Booking Portal where you can book on any course with a single click, receive reminders about your training and stay updated on your training progress.

The VIP portal, developed by Coleman Training to offer a new approach to training delivery, can be accessed for a small monthly fee of only £10 + VAT per learner, which can be reclaimed via individual employer funding up to end of March 2023.

"Thank you very much for providing these training opportunities. Along with my PAs, I'd say we really appreciate the different subjects that are being covered. Previous training opportunities from other organisations have been good, but not as varied or as appropriate as Coleman Courses" - Cath Sorsby, Employer of PAs

If you would like to purchase a VIP Training Package, please contact Juanita Wilson on 01202 138627 or email juanita@colemantraining.co.uk.
