

Key messages you may want to share with people using your service (and their families or carers)

- ✓ The service you receive is commissioned or funded by the Adult Social Care and Health Department at Bradford Council. They are asking everyone using services to complete a new equalities questionnaire.
- ✓ This questionnaire will help the Council to improve existing services and shape future services to be accessible, inclusive and welcoming for everyone.
- ✓ All responses are anonymous.
- ✓ You do not need to answer any questions you aren't comfortable with. You can pick 'prefer not to say' or just leave the question blank.
- ✓ If you'd like to know why the Council is asking these questions you can hover over the symbol on each page or read the additional information sheet.
